

CDC INCOME ELIGIBILITY SCALE

To be eligible for the Child Development and Care (CDC) program at application, a family's gross monthly income must not exceed the maximum monthly gross income limit by family size associated with the \$15 family contribution category. Ongoing eligibility in the program is limited to the maximum monthly gross income limit by family size associated with the \$40 family contribution category.

Each family is responsible to pay the child care provider the portion of family contribution associated with the family's income eligibility determination at the most recent application or redetermination. This payment portion is subtracted from the payment amount.

Family contribution amounts are per child, per every two week pay period.
